

ECREA Section for Communication History

2020 Yearly Report to the ECREA Executive Board

In 2020, sections' activities were limited because of the Covid-19 pandemic.

The section members should have been involved in the ECREA general conference in Braga, but this did not take place.

We co-organized with the Radio Research and Television Studies sections the pre-conference "Old Media Persistence" (see <https://www.ecrea2020braga.eu/old-media-persistence/>), the call for paper was launched, but then we stopped this process because of the cancellation of the main conference.

For this reason, in 2020, the management team decided to focus the sections' activities on the new book project launched in 2019, during the workshop held in Vienna. During 2020, all the book chapters were received, revised, and then submitted to the publisher De Gruyter. This edited book will be published by 2021, with several sections' members involved.
